

SOLAR<sup>TECH</sup> ITALIA

SOLAR<sup>TECH</sup> ITALIA

## SolarTech Italia

SolarTech Italia is a leading solar PV solutions retailer.

Our mission is to assist our professional customers by providing complete solutions for the design and installation of solar photovoltaic systems and to promote the adoption of renewable energy through innovative and sustainable solar PV solutions.

We are committed to providing high-quality products and services that contribute to preserving the environment and to staying at the forefront of solar PV innovation

We are distinguished by our technical expertise and our customer dedication. Every project we undertake is tackled with care and attention to detail, ensuring excellent results and maximizing energy efficiency.

We are proud to be part of the change towards a sustainable future.

## What we offer to our customers

### High-Performance Solar Panels

We exclusively use high-quality solar panels, made with durable materials and advanced technologies, ensuring optimal performance even in challenging environmental conditions.

### Advanced monitoring systems

To ensure efficient monitoring and management of photovoltaic systems, we integrate advanced monitoring systems that allow to keep track of the performance in real time.

## State-of-the-Art inverters

Inverters are a key component of photovoltaic systems: they ensure efficient and reliable conversion of solar energy, maximizing the overall system yield.

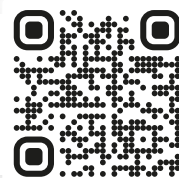

## Certified materials and components

The quality and reliability of the materials and components used in photovoltaic systems are certified, ensuring the safety and long-term durability of the systems.

## Robust mounting structures

We use robust and high-quality mounting structures, designed to withstand weather conditions and ensure an optimal position of the solar panels to maximize solar light capture.
